

ICS Go-Kit:

If you have not already prepared an ICS go-kit for your role/function on the IMT, here are some suggestions. Some items you would keep in your go-kit and some items (like ID, laptop, jacket) you would need to be sure to add at the time of the event.

- (1) Identification (including County ID badge)
- (2) Pens, pencils, markers
- (3) Notepad
- (4) ICS forms for your section
- (5) Policies, procedures, and instructions that may be needed for any incident
- (6) Copy of appropriate functional Tabs for your section (check web often as these are updated regularly)
- (7) Maps (if appropriate)
- (8) Write-able compact disks, memory stick
- (9) Call-down lists for your staff
- (10) IMT contact list
- (11) Laptop (if you have one), surge protector
- (12) Small flashlight
- (13) Medications
- (14) Snacks
- (15) Toiletries and hygiene supplies
- (16) Emergency contact for family members
- (17) Copy of your family response plan (where do the children go in case of evacuation of school, etc)
- (18) Change of clothes
- (19) Jacket – depending on weather. (You may be responsible for traffic control, or the heating system may be down, for example.)

It sounds like a lot, but you decide what you need to keep in it. These are only suggestions.
